Which Brands Make the Most Reliable Appliances?

CR's Appliance Brand Reliability Rankings can help you avoid problem-prone models—and the cost of repairs

By Consumer Reports
June 12, 2024

When it's time to invest in a new refrigerator or dishwasher, you want to get one that will stand the test of time. The best way to make sure you're not settling for another replacement to soon? Rely on a reliable brand. Bucking its predicted reliability—based on exclusive data from CR's member surveys—will save you money over the long haul and keep refrigerators, washers, and other appliances out of the waste stream and landfill.

CR's annual Appliance Brand Reliability Rankings show how reliable a brand is relative to other scores multiple appliance types: refrigerators, dishwashers, over-the-range microwaves, ranges, cooktops, wall ovens, washing machines, and dryers. The results are based on survey data we collected from our members on 47,029 kitchen and laundry appliances purchased new between 2013 and 2023.

To calculate predicted reliability, we ask members whether their appliances broke or stopped working as well as they should. We use that data to estimate how a given brand's new models will hold up over the first five years of use. The chart only includes brands for which we have reliability ratings in at least two categories of major appliances.

The predicted reliability ratings for appliances from each brand are an average of the ratings for all types of that brand's appliances (for example, front loaders, top loaders, etc., for washing machines).

For each brand, the average predicted reliability score has been adjusted to account for differences among types of appliances. A brand that earns relatively high marks for its French-door refrigerators, for example, will get a bump in its score because French-door models are typically more reliable than other refrigerator types. Without this statistical adjustment, a brand that makes only top-freezer refrigerators—the most reliable type—would have an unfair advantage over brands that make multiple types.

Yet again, Speed Queen sits atop our rankings and is the only brand to achieve a top Overall Score. And once again Viking landed at the bottom of our chart, joined this year by another elite brand, Dacor, which also reached an undesirable Overall Score.

The history appliance brand Cagema debuted on our chart this year, tying with two other brands for second place. Cagema has three product categories in our brand reliability ranking calculation: dishwashers, cooktops, and wall ovens.

Fisher & Paykel saw the largest advance between last year's and this year's rankings, moving up seven spots from last year and adding seven points to its Overall Score. Kenmore and Bosch experienced the biggest drops, falling nine and eight places in rank, respectively. Kenmore managed to reach its middle-tier ranking, but Bosch slipped from a four-star ranking to one that is just one tier lower.

Keep in mind that our predicted reliability ratings are not an indicator of performance. So even when you settle on a reliable brand, you'll want to check our full appliance ratings to find a specific model that performs well in our rigorous lab tests. In our ratings of washing machines, dryers, and dishwashers, look for our Green Choice designation, which identifies appliances with a lower environmental impact.

Which Brands Make the Most Reliable Appliances?

CR's Appliance Brand Reliability Rankings can help you avoid problem-prone models—and the cost of repairs

By Consumer Reports
June 12, 2024

When it's time to invest in a new refrigerator or dishwasher, you want to get one that will stand the test of time. The best way to make sure you're not shelling out for another replacement too soon? Buy from a reliable brand. Factoring in predicted reliability—based on exclusive data from CR's member surveys—will save you money over the long haul and keep refrigerators, washers, and other appliances out of the waste stream and landfills.

CR's sixth annual Appliance Brand Reliability Rankings show how reliable a brand is relative to another across multiple appliance types: refrigerators, dishwashers, over-the-range microwaves, ranges, cooktops, wall ovens, washing machines, and dryers. The results are based on survey data we collected from our members on 417,629 kitchen and laundry appliances purchased new between 2013 and 2023.

To calculate predicted reliability, we ask members whether their appliances broke or stopped working as well as they should. We use that data to estimate how a given brand's new models will hold up over the first five years of use. The chart only includes brands for which we have reliability ratings in at least two categories of major appliances.

The predicted reliability ratings for appliances from each brand are an average of the ratings for all types of that brand's appliances (for example, front-loaders, top-loaders, etc., for washing machines).

For each brand, the average predicted reliability score has been adjusted to account for differences among types of appliances. A brand that earns relatively high marks for its French-door refrigerators, for example, will get a bump in its score because French-door models are typically less reliable than other refrigerator types. Without this statistical adjustment, a brand that makes only top-freezer refrigerators—the most reliable type—would have an unfair advantage over brands that make multiple types.

Yet again, Speed Queen sits atop our rankings and is the only brand to achieve a top Overall Score. And once again Viking landed at the bottom of our chart, joined this year by another elite brand, Dacor, which also received an unfavorable Overall Score.

The luxury appliance brand Gaggenau debuted on our chart this year, tying with two other brands for second place. Gaggenau has three product categories in our brand reliability ranking calculation: dishwashers, cooktops, and wall ovens.

Fisher & Paykel saw the largest advance between last year's and this year's rankings, moving up seven spots from last year and adding seven points to its Overall Score. Kenmore and Bosch experienced the biggest drops, falling nine and eight places in rank, respectively. Kenmore managed to retain its middle-tier ranking, but Bosch slipped from a favorable ranking to one that is just midrange.

Keep in mind that our predicted reliability ratings are not an indicator of performance. So even when you settle on a reliable brand, you'll want to check our full appliance ratings to find a specific model that performs well in our rigorous lab tests. In our ratings of washing machines, dryers, and dishwashers, look for our Green Choice designation, which identifies appliances with a lower environmental impact.

Thank you for your business!

To submit your claim please follow 4 easy steps:

1. Go to www.necoonline rebates.com.
2. Attach the electronic copy of your invoice from a computer, tablet or even snap & upload your invoice via mobile phone.
3. Complete required information. ***Important – Serial numbers are required to receive payment.**
4. After the claim has been approved, you will receive an email from notification@prepaiddigitalsolutions.com with instructions for redeeming a physical or virtual card.
5. Claims must be submitted online by 8/9/2025.

Terms & Conditions: Prepaid Mastercard card/virtual card is issued by Pathward®, N.A., Member FDIC, pursuant to license by Mastercard International Incorporated. Participating 5% Back Merchants do change; visit website for current listing. Mastercard and the circles design are registered trademarks of Mastercard International Incorporated. No cash access or recurring payments. Card can be used where Debit Mastercard is accepted. Virtual card can be used where Debit Mastercard is accepted online, for phone/mail orders or in stores that accept mobile wallet. Card/Virtual card valid for up to 6 months; unused funds will forfeit after the valid thru date. Terms and conditions apply. This rebate offer is limited to one rebate per household, and is limited to two models per product category. Multiple sales to builders, apartments, condominiums, subdivisions, etc., do not qualify. Please keep a copy of your invoice & this claim for your records. Void where prohibited, taxed or restricted by law. Missing or incomplete information will delay the processing of your rebate. Online orders must show proof of payment invoice (not an email confirmation notice). The consumer is responsible for the appropriate sales tax. By submitting this claim you hereby accept the above stated terms and conditions. Fraudulent submissions may result in federal prosecution. If you are unable to take delivery by the cut-off date, please make sure your claim has been entered on-line before the deadline. This will ensure your claim has been received during the program period. Kindly make sure an email address has been provided so that we are able to send you an automatic email message of any missing information. If you will NOT be taking delivery by the cut-off date of 08/09/2025, please SUBMIT online prior to the cutoff date and either send us an email to necorebates@360incentives.com or call us at 1-855-359-7131 to request an extension of an additional 30 days from program expiration. Allow 16 weeks from the time we receive all required Information. If you have not received your card, you may reach us at 1-855-359-7131 or by email at necorebates@360incentives.com. Your NECO Alliance Mastercard is valid for purchases at U.S. locations for six months from the date that it is issued.
